

Department of the Interior Recovery Investments *Investing in America's Economic Recovery*

Capital Improvements Projects

Need

Campgrounds and recreation sites across Arizona need repairs. Other aspects of these projects include solar power installations that will integrate with existing grid power sources. Incorporating solar power will improve use of renewable energy within federal agencies. Campground repairs will assist the BLM in meeting its mission to provide recreational facilities on public lands.

Recovery Act Funding

BLM-Arizona has received \$2,919,000 through the Recovery Act to fund 10 Capital Improvement projects. These projects will repair and add to existing facilities across the State. These projects will be accomplished primarily through construction contracts.

Benefits

These projects will improve BLM-Arizona facilities at recreation sites. Improvements to existing facilities and construction of new facilities will lower the cost of maintenance and also enhance the public's enjoyment of their public lands.

More Information

Another aspect of these projects would be lower energy consumption from the electrical grid.

For more information on this BLM project, contact: Linda Johnson, BLM-Arizona ARRA Coordinator, Arizona State Office, 602-417-9576, linda_johnson@blm.gov.
